We are here to help all asylum seekers and refugees in Britain.

We want your association with our community to be a positive experience.

WHO WE ARE

We are an association that helps **Africans** to **integrate** properly into **British society**. Those we help are mostly **asylum seekers** or **refugees** in extremely difficult circumstances.

We provide **moral and emotional support** within a purely African culture while allowing the **communities living side by side** to **respect** and **accept** the **culture** of each other.

We provide **Africans new to Britain** with access to accurate **information** that helps them integrate into **British life** as **easily** as possible.

We can help you get information on the following subjects:

- finding nearby, reasonably priced African food shops
- explaining the complex process of claiming asylum in England and what to do after your status as refugee has been recognised
- guidance with handling difficulties with NASS support if your circumstances change
- putting you in touch with others from your own African community (dancing groups, football, churches and pastors)
- coping without family and friends

We also:

- visit and provide help if needed
- organise activities to help you forget your troubles
